New Process for Qatar Applications

If you are interested in study abroad at TAMU-Qatar then please note that the application process has changed. Please click here for detailed information on the new process.
ENGR 111/112 Peer Teacher Help Sessions UPDATED
See this flyer for dates and times of this semester's peer teacher help sessions for ENGR 111/112. Please note the help sessions are separated by the engineering tracks. Mechanical students are Track A.

Rube Goldberg Machine Contest
I'd like to invite you to compete in the 1st Annual RUBE GOLDBERG MACHINE CONTEST hosted by Theta Tau Professional Engineering Fraternity! This semester Theta Tau will be hosting a Rube Goldberg Machine Contest on campus. This is a multidisciplinary event that promotes creativity within the world of engineering! For information and instructions, click here.

Tax Workshops for International Students
International Student Services will be hosting tax workshops to assist international students. Dates and registration information are available through the ISS website or the following link: http://iss.tamu.edu/taxinfo/workshop/TaxInformation.asp

GRE Prep Class
The next GRE Prep class will be held Saturday, March 22nd and Saturday, March 29th from 8 am to 5 pm. There will be a one hour lunch break. Click here for the detailed information about the GRE Prep course, including future classes, course details, pricing, and information about private tutoring and an online version of the course. Sign up at http://studyprof.doattend.com/.

BP Trading Competition
BP is offering trading simulations for Texas A&M students on March 27th! No prior experience needed. More information and sign-ups at http://mays.tamu.edu/trip/bp/.

Texas A&M Regional Engineering Conference
The Student Engineers' Council at Texas A&M will be hosting the annual Texas A&M Regional Engineering Conference (TREC) on March 28th and 29th, 2014. TREC is a design competition and conference for teams of 6 students of any engineering major that currently attend a university in the Texas region. While we allow both undergraduate and graduate students to participate, we would like to especially reach out to underclassmen for TREC 2014. Click here for more information.

Champion Energy Scholarship
Champion Energy has announced a scholarship program for High School Seniors and College Students. The program focuses on Champion Energy’s commitment to community service and philanthropy, and will award scholarships to one winner ($5,000) and two runners up ($1,000). Applications are due April 1, 2014 and winners will be announced by May 1, 2014.
The scholarship application centers on community involvement, and copies of the application are attached. If you know of any students that do well in school and champion a cause in their school or their community, please give them an application. Students can also download the application at: http://www.ionenergyservices.com/programs/scholarship/ http://www.championenergyservices.com/programs/scholarship/

**EPA Fellowship Opportunity**
A postgraduate fellowship opportunity is available at the U.S. Environmental Protection Agency's (EPA) Office of Transportation and Air Quality in Ann Arbor, Michigan. The fellowship will be served with the Transportation and Climate Division (TCD). Click [here](http://www.ionenergyservices.com/programs/scholarship/) for more information.

**Postgraduate Fellowships and Scholarships**
Each year, these prestigious scholarships provide funding for students to engage in numerous postgraduate opportunities around the world and are awarded to only a select number of students in the nation: Rhodes, Marshall, Mitchell, Churchill, Gates Cambridge, Fulbright. Click [here](http://www.championenergyservices.com/programs/scholarship/) for more information.

**GCPA Dave Olver Memorial Scholarship**
The Gulf Coast Power Association has announced several scholarships to be awarded this spring (minimum of $2,500 each). The program’s goals are to assist deserving students in attaining their educational goals, encourage participation in the electric power industry and increase awareness of GCPA by investing in education. [Click here](http://www.ionenergyservices.com/programs/scholarship/) for more information and the application.

**Tenaris International Internship**
The college of engineering has partnered with TENARIS to offer international internships for sophomore and junior students. This is a great opportunity to combine two of the most valuable high impact learning activities in one summer: Study Abroad and Internship. This will be a paid internship and TENARIS will cover the travel cost of the interns. For more information, click [here](http://www.championenergyservices.com/programs/scholarship/).

**Undergraduate Research at the University of Houston**
Spend 10 weeks this summer performing nanotechnology research in the Cullen College of Engineering while earning a $5,000 stipend! The application deadline is March 21, 2014. Click [here](http://www.championenergyservices.com/programs/scholarship/) for instructions and information.

**United State Gypsum Co-op and Full Time Opportunities**
USG will be holding an information session on Thursday, February 27th at 5:30pm in MSC 2404. They are looking for co-ops as well as full time Mechanical, Electrical, Chemical, and Industrial Engineering majors. Any immediate openings will likely be discussed at the information session.
Southern Plains Transportation 2014 Summer Internship Program
The 2014 TRIP is focused on summer internships for students seeking to gain valuable professional experience through working for a transportation company or a government organization/agency such as a department of transportation over a period of ten to twelve weeks. For more information and application information, click here.

AZZ Summer Internship
AZZ Inc. is looking to hire interns with the hopes of developing them into future leaders of the company. Each selected intern will be assigned a mentor during the internship. Interns will meet regularly as a group to give updates to management on their experience. These interns will participate in a summer internship beginning May 2nd and ending the last full week of July. We prefer the internship be given to academic performance above the 2.4 GPA level. For more information on the internship, send an e-mail to TreyQuinn@azz.com.

Study Abroad in Puerto Rico This Summer!
ISEN has extended the application deadline for their study abroad program in Puerto Rico until March 27th! For more information about the program, click here and here. To apply, fill out this application and to request financial aid, turn this form into the Study Abroad office.

AMBER Lab Looking for New Undergraduate Researcher
The AMBER lab is looking for undergraduates who have experience with machining and can help machine parts for the robots and fix things when failures occur. Click here for more information.

If you need to contact someone in the Undergraduate Advising Office, call 979-845-1252
Or e-mail Katelynn Graham at kgraham@tamu.edu
If you need to speak to an adviser, try:
Kasey Sims at ksims19@tamu.edu
Rachal Thomassie at rthomassie@tamu.edu

OR
Doug Beck at dbeck@tamu.edu
