**Master of Engineering**

**Curriculum Courses:** PETE 661, 662, 663, 664, 665

If no petroleum degree, then all these courses are required; or, at the discretion of your advisor. If PE degree, limit two courses, rest from specialized area.

**Outside of department courses:**
Safety Engineering and Statistics (contact those departments for more information)

*Some professors replace PETE 685 w/other courses; discretion of advisor
