Biomedical Engineering Seminar Series – Spring 2016
WEDNESDAYS AT 2:40 P.M. IN 1034 EMERGING TECHNOLOGIES BUILDING

Feb. 3  Eben Alsberg | Professor | Department of Biomedical Engineering | Department of Orthopaedics | Case Western University

Feb. 24  Alessandro Grattoni | Chairman | Department of Nanomedicine | Institute for Academic Medicine | Houston Methodist Research Institute

March 9  Metin Akay | Founding Chair and John S. Dunn Endowed Chair Professor | Department of Biomedical Engineering | University of Houston

March 23  Ted Ruppel | President and CEO | Shape Memory Therapeutics

March 30  Ashutosh Chilkoti | Theo Pilkington Professor and Chair | Department of Biomedical Engineering | Duke University

April 6  Buddy Ratner | Professor and Michael L. & Myrna Darland Endowed Chair in Technology Commercialization | Department of Biomedical Engineering | Department of Chemical Engineering | University of Washington

April 13  Stephen Wong | John S. Dunn, Sr. Presidential Distinguished Chair | Department of Systems Medicine & Bioengineering | Houston Methodist

April 20  James Hickman | Professor | Department of Materials Science & Engineering | University of Central Florida

April 27  Gert Cauwenberghs | Professor | Department of Bioengineering | University of California, San Diego

The Department of Biomedical Engineering Seminar Series enables outstanding speakers from industry and academia to visit Texas A&M University and exchange ideas on teaching and research with students and faculty. All seminars are scheduled to take place on Wednesdays at 2:40 p.m. in Room 1034 of the Emerging Technologies Building (topics and speakers are subject to change). For more information on this semester’s visiting speakers, including biographies and abstracts, visit: http://engineering.tamu.edu/biomedical/seminar
