**Computer Engineering Area electives**

- Students are required to satisfy 2 depth tracks. Satisfying a track requires completing at least 2 courses from the track’s list (see below). Consequently, four of the area elective electives are occupied by depth requirements.
- #A few courses are in multiple tracks—each course can only be used in one place on your degree plan. You cannot use the course in two places.
- The fifth course can be from the sequence list or any approved 300/400 level course in CSCE or ECEN. Consult your advising office to determine if a course is approved.
- Depth tracks are subject to change. Consult your advising office for the current list.
