College of Engineering PROBATION & BLOCK POLICIES

According to the Scholastic Deficiency/Probation section (Revised: 2013) of the Texas A&M University Student Rules (http://student-rules.tamu.edu/rule12), Section 12.1 An undergraduate student is scholastically deficient when

- 12.1.1 His or her term grade point average is less than 2.00; or
- 12.1.2 His or her cumulative grade point average is less than 2.00; or
- 12.1.3 The cumulative grade point average in his or her major field of study is below a 2.00; or
- 12.1.4 He or she is not meeting college and/or major course of study grade point requirements.

Probation & Block Policies (All Engineering Majors)

Determination of scholastically deficient status occurs at the end of each long semester (fall or spring) once final semester grades have been posted. No scholastically deficient review occurs at the end of summer semester. Scholastically deficient students are placed on scholastic probation. Departments may have additional terms or definitions of scholastic probation, please refer to the department’s policy for more information.

- **Cumulative GPA <2.0**
  - Placed on scholastic probation and blocked from pre-registration by the department.
    - At the end of the probationary semester
      - If the term GPA is $\geq 2.0$ in the probationary semester and the cumulative GPA is $\geq 2.0$, the student will return to good academic standing.
      - If the term GPA is $\geq 2.0$ in the probationary semester and the cumulative GPA remains below 2.0, the student may be allowed additional probationary semester(s) based on departmental policy.

- **Term GPA <2.0**
  - Placed on scholastic probation.
    - At the end of the probationary semester
      - If the term GPA is $\geq 2.0$ in the probationary semester, the student will return to good academic standing.
      - If the term GPA is $<2.0$ in the probationary semester, the student will be dismissed from the department and blocked from further registration until the student has changed majors.
        - If the student changes majors within the college of engineering they will be placed on probation and blocked from pre-registration by the Engineering Academics and Student Affairs office.
        - If the term GPA is $\geq 2.0$ in the probationary semester, the student will return to good academic standing.
        - If the term GPA is $<2.0$ in the probationary semester, the student will be dismissed from the college and blocked from further registration in the College of Engineering.

University Level Suspension Policies

- A scholastically-deficient undergraduate student may, after review by the Associate Provost for Undergraduate Studies or designee, be suspended from the university because of scholastic deficiency by the following action: Suspension – Separation of the student from the university for a definite period of time. The student is not guaranteed readmission at the end of this period of time. The student is guaranteed a review of the case and a decision regarding eligibility for readmission.

Below is a chart to visually represent the above policies:

<table>
<thead>

<td>Grade point deficit of -18</td>
<td>Grade point deficit of -18</td>
<td>Grade point deficit of -14</td>
<td>Grade point deficit of -10</td>
</tr>
</tbody>
</table>

Student Rights

An undergraduate student blocked or suspended for deficient scholarship may request a hearing by the University Academic Appeals Panel in accordance with Student Rule 12.8.5.

Undergraduate students can appeal their dismissal. Dismissal letters sent to the students at the end of each semester will have instructions on how to appeal to their department or college depending on the level of dismissal.

Revised April 2016
College of Engineering Probation & Block Policies for Term GPA

ENGR Major

- Semester Term GPA <2.0
  - Yes: Scholastic probation terms sent by department
  - No: Cumulative GPA <2.0
    - Yes: In good academic standing
    - No: Placed on Scholastic Probation with department and subject to dismissal per department policy

- Probationary Semester term GPA <2.0
  - Yes: Dismissed from Department/Major
  - No: Cumulative GPA <2.0
    - Yes: In good academic standing
    - No: Probationary Semester term GPA <2.0

- Cumulative GPA <2.0
  - Yes: In good academic standing
  - No: Dismissed from College of Engineering

- Student finds another major in COE with guidance of department advisor
  - Yes: Student is placed in the new major in COE; Student is placed on Scholastic Probation and blocked from pre-registration by EASA
  - No: Student changes to a major outside of COE or discusses re-admission with departmental advisor

- Cumulative GPA <2.0
  - Yes: Continue to be on Scholastic Probation with department and subject to dismissal per department policy
  - No: In good academic standing

- Probationary Semester term GPA <2.0
  - Yes: Dismissed from College of Engineering
  - No: Cumulative GPA <2.0
    - Yes: In good academic standing
    - No: In good academic standing
How to Calculate Grade Point Deficits

The University uses variance points to determine whether or not students are placed on scholastic probation. Students’ grades are weighed based on the number of credit hours of a class and the grade they earn. In order to remain in good academic standing, students must earn at least a “0” in variance points in both their semester and overall GPA. The more positive points students have, the less susceptible they will be to scholastic probation. Students on scholastic probation have negative variance points, and must earn positive points the next fall or spring semester. Earning A’s and B’s will add points to the overall variance while earning D’s and F’s will remove points from the overall variance. Earning a “C” does not earn either positive or negative variance points, because a C is considered a 2.0 and a 2.0 GPA is considered “good” academic standing. The number listed on a student’s probation letter (C+6, for example) is the number of positive points that must be earned.

Variance points earned per class based on semester credit hours (SCH)

<table>
<thead>
<tr>
<th>Grade</th>
<th>1 Credit Hours</th>
<th>2 Credit Hours</th>
<th>3 Credit Hours</th>
<th>4 Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>+2</td>
<td>+4</td>
<td>+6</td>
<td>+8</td>
</tr>

<td>13</td>
<td></td>
<td>-1</td>
</tr>
</tbody>
</table>

The student in the table above would be on C+1 probation because they are 1 grade point BELOW a 2.0 GPA.

Students on semester probation must earn $\geq 2.0$ GPA the next semester.
