Getting the Most out of Attending and Presenting at Seminars

This talk will prepare students to be active participants in the MSEN 681 seminar series.

Michael J. Demkowicz, Ph.D.

Dr. Michael J. Demkowicz is an associate professor in the Department of Materials Science and Engineering. He specializes in computational materials design and fundamental physics of material behavior, especially mechanical properties and radiation response. He currently leads several projects in these areas. He is interested in leading outreach activities that promote the Aggie students and post-doctoral community through recognition, networking and mentoring.
