Using Citrix On a Personal Apple Computer

Setup

1. Install Texas A&M’s VPN at [connect.tamu.edu](http://connect.tamu.edu) – You must be connected to the VPN to access Citrix when you are off-campus
   a. Follow the instructions on this website to download the VPN client

2. Install or update the Citrix Receiver application from [www.citrix.com](http://www.citrix.com)
3. Select Downloads at the top of the page
4. select **Citrix Receiver** from the drop-down menu

5. click the **Download Receiver for Mac** button
6. Open the **CitrixReceiver.dmg** file in your Downloads folder

7. Double-click **Install Citrix Receiver** to install the application
8. Click **Continue** and follow the prompts to install Citrix Receiver
9. Open the **Citrix Receiver** application from your menu bar at the top-right of your screen

10. under **Add Account**, type in [https://coexen. engr. tamu. edu](https://coexen. engr. tamu. edu) and click **Add** to connect to the Citrix domain
Using the Citrix Application

1. Open the **Citrix Receiver** application by selecting **Open Citrix Receiver** via the Citrix icon on your computer’s menu bar

2. Log in with your **NetID** username and password
3. the **Citrix Receiver** window will open, where you can access any of the ISEN storefront apps
Exiting the Citrix Application

1. sign out by clicking on the arrow next to your account name inside the Citrix Receiver window and selecting Log Off
