Risk Matrix

February 22, 2012
Risk Analysis

Sample Sources of Risk
- Unrealistic schedule
- Inadequate staffing or skills
- New technology
- Test failures
- Operational hazards
- Poor requirements
- Infeasible design
- Unavailable technology
- Poor quality assurance
- Design deficiencies

Likelihood

Consequence

Little or no potential for increase in cost, schedule disruption, or degradation of performance

May cause some increase in cost, schedule disruption, or degradation of performance

Likely to cause significant increase in cost, schedule disruption, or degradation of performance
