AERO Provisional (AP) Program Application

Per College and Department policy, admission to AERO Level is automatic if (1) all nine CBK courses are complete with C or better AND (2) CBK GPR ≥ 2.85 AND (3) overall TAMU GPR ≥ 2.85.

sum    ____  ____

NOTES: Use best grade for repeated courses. Include CBK courses/grades transferred.

CBK GPR:  ________  (= sum CP / sum CR; include CBK courses transferred)

TAMU GPR:  _______ (must include courses taken at TAMU, except those courses that may be excluded per TAMU’s policy)

The Department has established AP status to provide students an exception if you are marginally deficient in only one of the three AERO entry requirements or are a first semester transfer student. Students who have more than 60 hours are not eligible for the AP program. Transfer students and students with excess AP/Dual credit from high school will be reviewed on a case-by-case basis.

Check the deficiency applicable to you (Note: you must have only one deficiency to apply).

_____ My CBK GPA is less than 2.85, but all 9 CBK courses are complete with a C or better.

_____ My TAMU GPA is less than 2.85, but all 9 CBK courses are complete with a C or better.

_____ I am missing only one CBK course, but I have completed MATH 152 (with a C or better) and both my CBK and TAMU GPAs are 3.0 or higher.

_____ I am a first semester transfer student.

Students on AP Status are only eligible to take AERO courses on a seat available basis for one term. Students must enroll in a minimum of three AERO courses for the term they are on AP. Upon completion of the term, you must have at least a 3.0 GPR in all courses completed during the term with no grades below a C and no Q-drops. In addition if you are completing a CBK course as part of the AP program, this must be completed during your AP term.

Students who successfully complete the requirements will become full-fledged AERO students. Students who do not meet these requirements will not be allowed to continue as an AERO student in any future semester and will need to transfer departments.

I, _____________________________, agree to the provisions stated in this application.

Student Signature  Date
Due to limited space available in courses for AP students and because AP decisions are typically not made until fully eligible students have a seat in AERO courses (this occurs in early August for the fall semester and early January for the spring semester), we advise you to think about a back-up plan and register for those courses in case you are not selected for the AP program. That way you have a full schedule for the upcoming semester and are not searching for class openings at the last minute if you are not selected for the AP program. Some examples of classes to consider include your next math course and remaining UCC courses. If you are selected, we will force you into AERO courses for which you are approved. If you are currently in your third semester as an AERL student, we recommend you visit with other majors to learn about options since students with more than three semesters have had a lower acceptance rate into the AP program due to increasing number of accumulated hours. Students with more than 60 hours are not allowed to apply for the AP program.

As a reminder, applying for the AP program does not guarantee acceptance into the program. Applications will be evaluated based on criteria including GPAs, courses completed, courses retaken, grades received, number of semesters as AERL, and total number of hours completed. If you are applying for the AP program due to the fact that you are missing one of your CBK courses and your GPAs are high, you might consider registering for available AERO classes. Keep in mind, however, that although the probability of your acceptance into the AP program is high, there is no guarantee this will occur, and you will be dropped from AERO courses if seats are not available.

Again, if you are accepted into the AP program, we will add you to your AERO courses and drop courses you signed up for that are not needed that term. Remember you must be enrolled in at least three AERO courses while participating in the AP program.

Please indicate below which AERO courses you would like to take if accepted into the provisional program:

<table>
<thead>
<tr>
<th>Course requested?</th>
<th>CRN</th>
<th>Course Number</th>
<th>Section Number</th>
<th>Reason (if applicable)</th>
</tr>
</thead>
<tbody>
<tr>
<td>AERO</td>

</table>

- I have not enrolled in courses causing a time conflict with the requested course(s) and section(s), or I am responsible for resolving such conflicts.
- I believe I will have met the course requirements stated in the current catalog before the first day of the semester.
- I understand that I will not be forced into a class if I have not met the prerequisites before the first day of the semester.
- I understand that by requesting this action it does not guarantee I will be enrolled should the course be deemed full by the department. Enrollment management decisions are up to the department.
- I understand departmental decisions on forcing might not be made until one week prior to the beginning of the semester.
- I will be expected to review my schedule and pay for the additional hours under the University registration and payment procedures.
