NOTES:

1. Courses inside box must be completed with grade of C or better.
2. CSCE 481 should be taken in the student's Junior year.
3. International and Cultural Diversity (ICD) and Cultural Discourse (CD) requirements may be met by courses satisfying the creative arts, social and behavioral sciences, history, and the language, philosophy and culture requirements if they are also on the approved list of ICD and CD courses. See [icd.tamu.edu](http://icd.tamu.edu).
4. See <http://core.tamu.edu/> for classes.
5. At least two of these classes should also be ICD and CD if possible.
6. Additional courses may be approved in the future for this requirement. See [core.tamu.edu](http://core.tamu.edu).
7. List of approved Engineering electives and Area electives available on our website.
8. ECEN 350 can be taken in place of CSCE 350 since they are cross-listed.
9. All students are required to complete a high-impact experience. See CSCE advising for information.

## Instructions

These instructions are to be used as a guide in preparing the Departmental of Computer Science and Engineering (CSCE) Degree Plan Form for the Bachelor's Degree in Computer Engineering – Computer Science track (BS-CECN). A degree plan is required to be filed in Howdy by the student's third semester at the University.

Degree audits are produced by the Registrar's Office and can be viewed on-line at [howdy.tamu.edu](http://howdy.tamu.edu). The audit should be carefully reviewed by the student with his/her advisor, to determine the progress toward a degree.

## Total Hours Required

The total hours on the degree plan must be at least 128. Note that the 128 hours **do not** include the International and Cultural Diversity (ICD) and Cultural Discourse (CD) classes. This is because these classes can be used to satisfy the ICD or CD requirement and another requirement on the degree plan simultaneously; see the advising office for a list of the courses that can be used in this way. This is the only place where one course can be used in two places on the degree plan.

Please note that the **128 total hours do not include a required foreign language**. It is the student's responsibility to meet the University's foreign language requirement.

## Comments and Observations

Before visiting the Undergraduate Advisor about a degree plan, the student should make as many decisions as possible. One problem area is transfer credits. It is sometimes difficult to know which courses may be used. Efforts are made to allow 'reasonable' substitutions. A student **must** submit a copy of his/her transcript evaluation and a completed substitution form along with the degree plan form if credit for transferred courses is desired. To approve courses that transfer "By Title" to TAMU documentation of the courses content, such as a catalog description, will be required.

It is the **student's responsibility** to have a degree plan meet minimum requirements. Everyone involved will check, but if a graduating senior's degree plan is not acceptable (e.g., only 127 hours), the student will not graduate until the problems have been corrected.

## Required Courses

Take all courses listed on the Degree Plan. **All courses inside the boxes must be passed with a grade of "C" or better.**

## Engineering Technical Elective

A three (3) hour Engineering Technical Elective course from the following list must be completed.

- [MEEN 221](#), Statics and Particle Dynamics (3 Cr.)
- [MEEN 222/MSEN 222](#), Materials Science (3 Cr.)
- [MEEN 315](#), Principles of Thermodynamics (3 Cr.)
- [MATH 414](#), Fourier Series and Wavelets (3 Cr.)
- [MATH 442](#), Mathematical Modeling (3 Cr.)
- [MATH 471](#), Communications and Cryptography II (3 Cr.)
- [PHYS 221](#), Optics and Thermal Physics (3 Cr.)
- [PHYS 222](#), Modern Physics for Engineers (3 Cr.)

Click on the links above to view the course information including prerequisites required.

## Computer Engineering Area Electives

Fifteen (15) hours of CE area electives are required (5 courses). In meeting this requirement, students are required to take at least two courses from the same area and at least one from a different area listed below. The fourth and fifth courses can be chosen from any area. The fifth course can be also be chosen from approved CSCE, ECEN, or ENGR 385/270/470 classes, as described at the end of the section.

### Area 1. Communications and Networks

CSCE 463 (3), Computer Networks  
 CSCE 464 (3), Wireless and Mobile Systems  
 #CSCE 465 (3), Computer and Network Security  
 ECEN 423 (3), Computer and Wireless Networks  
 ECEN 424 (3), Fundamentals of Networking  
 #ECEN 434 (3), Optimization for Electrical and Computer Engineering  
 #ECEN 455 (4), Digital Communications  
 ECEN 478 (3), Wireless Communications  
 MATH 470 (3), Comm. & Cryptography

### Area 2. Information

CSCE 310 (3), Database systems  
 CSCE 436 (3), Computer Human Interaction  
 CSCE 444 (3), Structures of Interactive Info.  
 CSCE 470 (3), Information Storage & Retrieval  
 CSCE 438 (3), Distributed Objects  
 #ECEN 455 (3), Digital Communications

### Area 3. Robotics/Embedded Systems

CSCE 420 (3), Artificial Intelligence  
 CSCE 452 (3), Robotics  
 CSCE 456 (4), Real-time Computing  
 ECEN 420 (3), Linear Control systems  
 ECEN 422 (3), Control Engineering and Design Methodology

### Area 4. Signal/Image Processing & Graphics

CSCE 441 (3), Computer Graphics  
 CSCE 443 (3), Game Development  
 ECEN 444 (3), Digital Signal Processing  
 ECEN 447 (4), Digital Image Processing  
 ECEN 448 (3), Real time DSP

### Area 5. Software Systems

CSCE 314 (3), Programming Languages  
 CSCE 410 (3), Advanced OS  
 CSCE 411 (3), Design and Analysis of Algorithms  
 CSCE 431 (3), Software Engineering  
 CSCE 434 (3), Compiler Design  
 CSCE 435 (3), Parallel Computing  
 CSCE 442 (3), Scientific Programming  
 CSCE 451 (3), Software Reverse Engineering  
 #CSCE 465 (3), Computer and Network Security  
 CSCE 469/ECEN 469 (3), Advanced Computer Architecture  
 #ECEN 434 (3), Optimization for Electrical and Computer Engineering

### Area 6. VLSI

CSCE 469/ECEN 469 (3), Advanced Computer Architecture  
 ECEN 468 (4), Advanced Logic Design  
 ECEN 474 (4), VLSI Circuit Design  
 ECEN 475 (4), Intro. to VLSI Sys. Design  
 ECEN 326 (4), Electronic Circuits

#Courses shown in multiple areas can be used in only one place on your degree plan.

Click on [CSCE](#), [ECEN](#), and [MATH](#) links to view the course information including prerequisites required for these classes.

The fifth course (3 hours) can be chosen from approved CSCE, ECEN, or ENGR 385/270/470 classes:

- Computer Science and Engineering Courses (CSCE): Take any 300+ or 400+ courses from the Computer Science and Engineering Department that are not included in the required courses list. Students wishing to use CSCE 485, CSCE 489, or CSCE 491 must receive approval from the undergraduate advisor (CSCE dept.).
- Electrical and Computer Engineering Courses (ECEN): Take ECEN 322, ECEN 326, ECEN 338, 351, 370 or any ECEN 400+ course except for those already required (e.g., ECEN 454) or equivalent to one required (e.g., ECEN 449). Students wishing to take ECEN 485 or ECEN 489 must receive approval from the CSCE dept. undergraduate advisor.
- Other Courses: ENGR 385 (co-op) credits and EPICS (ENGR 270 and 470) credits may be used to fulfill CE area elective requirements. Excess credits above 3 cannot be used. Students are allowed to combine ENGR 385 credits with EPICS course credits; see CSCE advising for details.

**Note that no more than 3 hours from CSCE/ECEN 485; CSCE/ECEN 491; and ENGR 385, 270, 470 combined are allowed to fulfill the area elective requirement.**

## High Impact Experience

All students must complete a high-impact experience in order to graduate. These are often referred to in the college as ENGR[X] classes. They will generally include classes such as independent research, study abroad, and co-op experience. The list of specific items that can satisfy this requirement as well as indication of any additional documentation required will be available from the CSCE advising office.

## University Core Curriculum Courses

Refer to [core.tamu.edu](http://core.tamu.edu) for information on the core curriculum courses. The following degree-specific adjustments to the core curriculum should be noted:

- **Communication:** the Communication requirement must be filled by taking two courses:
  - ENGL 103 or ENGL 104
  - One of the following: ENGL 210, COMM 205, COMM 243
- **Mathematics:** the Mathematics requirements must be filled by the courses specified in the degree plan
- **Life and Physical Sciences:** the requirement must be filled by the courses specified in the degree plan.

The University's core curriculum requirements are unchanged in the following areas: Language, Philosophy and Culture; Creative Arts; American History; Government/Political Science; and Social and Behavioral Sciences. The International and Cultural Diversity and Cultural Discourse requirements are unchanged from the University's requirements. Follow the University's instructions in these areas.

## Foreign Language Requirement

Proficiency in a foreign language is required to graduate from Texas A&M University. This requirement can be met by:

- Completing two units (two full years) of high school course work in the same foreign language.
- Completing two semesters (one full year) of course work at the college level in the same foreign language, or
- Demonstrating proficiency in a foreign language by examination. See the undergraduate catalog for additional requirements under graduation requirements and Foreign Language.

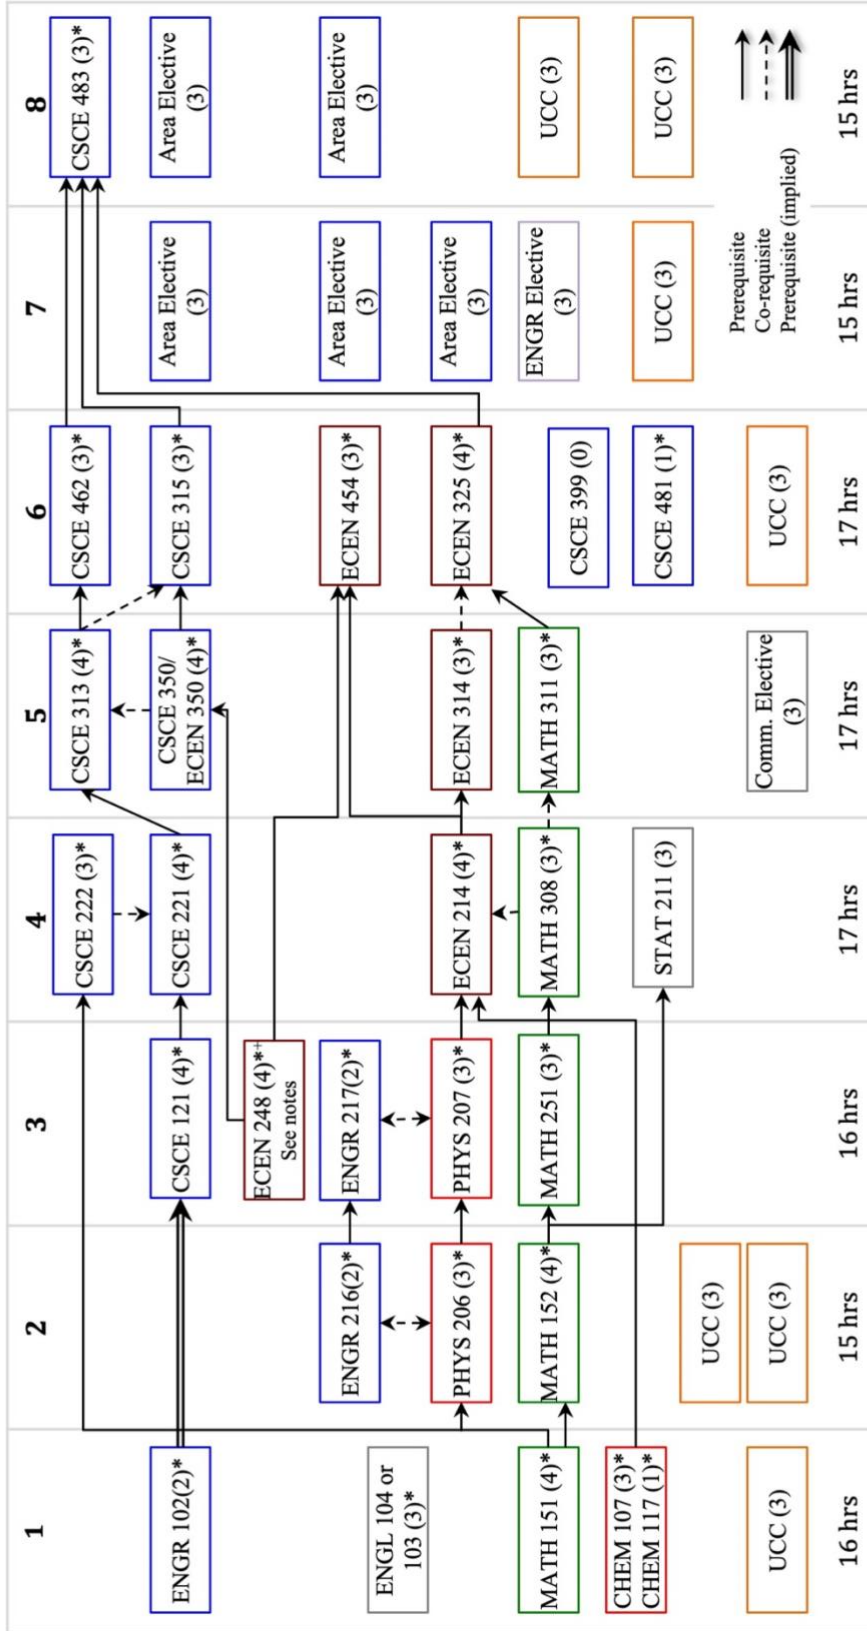

## Course Sequence

FRESHMAN YEAR					
First Semester	(Th-Pr)	Cr	Second Semester	(Th-Pr)	Cr
CHEM 107 Gen. Chem. for Eng. Students	(3-0)	3	ENGR 216 Experimental Physics and Engineering Lab II: Mechanics	(1-3)	2
CHEM 117 Gen. Chem. for Eng. Stu. Lab	(0-3)	1	MATH 152 Engineering Mathematics II	(3-2)	4
ENGL 103 Introduction to Rhetoric and Composition or ENGL 104 Composition and Rhetoric	(3-0)	3	PHYS 206 Newtonian Mechanics for Engineering and Science	(3-0)	3

		<b>15</b>			<b>15</b>

**NOTES:** Grade Requirements: A grade of C or better is required for each of the following courses: CSCE 121, CSCE 221, CSCE 222, CSCE 313, CSCE 315, CSCE 350, CSCE 462, CSCE 481, CSCE 483; ENGR 102, ENGR 216, ENGR 217; ECEN 214, ECEN 248, ECEN 314, ECEN 325, ECEN 454; MATH 151, MATH 152, MATH 251, MATH 308, MATH 311; CHEM 107/CHEM 117, PHYS 206, PHYS 207; ENGL 104.

- To be selected from the University Core Curriculum. Of the 21 hours shown as University Core Curriculum electives, 3 must be from creative arts, 3 from social and behavioral sciences, 3 from language, philosophy and culture, 6 from American history, and 6 from Government and Political Science. The required 3 hours from international and cultural diversity and 3 hours from cultural discourse may be met by courses satisfying the creative arts, social and behavioral sciences, history, and the language, philosophy and culture requirements if they are also on the approved list of international and cultural diversity and cultural discourse courses.
- 15 hours of area electives chosen in consultation with academic advisor.
- Three hours of coursework to be approved by student's advisor.
- Select from ENGL 210 or COMM 205 or 243.

Course Sequence for BS-CECN, Catalog 142 (2019-20)

NOTES

- Courses marked with an asterisk (\*) must be completed with grade of C or better.
- \*ECEN 248 prerequisites: PHYS 206, MATH 152
- CSCE 481 should be taken in the student's junior year.
- UCC: University core curriculum elective; Of the 21 hrs of UCC, 3 must be from Creative Arts, 3 from Social and Behavioral Sciences, 3 from Language, Philosophy and Culture, 6 from American History, and 6 from Government and Political Science.
- Comm. Elective: one of ENGL 210 or COMM 205 or COMM 243
- ENGR Elective: 3 hours of coursework to be approved by student's advisor .
- **Additional Requirements:** 3 hrs of International and Cultural Diversity and 3 hrs of Cultural Discourse courses (can be used to satisfy another requirement).
