Thank you for your support!

Industrial Affiliates Program Membership Summary

TEXAS A&M UNIVERSITY
Department of Computer
Science & Engineering

Industrial Affiliates Program

The Industrial Affiliates Program (IAP) is comprised of industry representatives who have a professional interest in the success of the Texas A&M University Department of Computer Science and Engineering and are willing to help us form and achieve our goals.

The purpose of the program is to improve relationships between the department and industry. That is, to improve the department's knowledge of industry needs and practices, to keep industrial affiliates informed about the department's research and teaching goals, to help the department better prepare students for real-world careers, to help place students, and to enable more department/industry collaborations.

Summary of Membership Benefits

- Influence curriculum. IAP members can give feedback on graduates, on teaching aims and approaches, and give insight to significant long-term industry trends
- Student scholarships awarded in the company's name as per the membership level. Companies receive the recipients' names and email addresses, and the company representatives are seated with their recipients at the spring banquet
- Opportunity to help increase diversity in our student population
- Attendance at IAP events. The fall event focuses on recruiting. The spring event consists of a meeting with faculty research presentations, the spring banquet, and a research project competition judged by IAP members. These events provide opportunities to visit with faculty and students.
- Access to the CSE Student Resume Bank (updated throughout the year)
- Interaction with our students through classroom speaking or panelist invitations and sponsorship opportunities
- Promotion and assistance with talks and CSE events and job announcements
- Information exchange, gaining information from our faculty about current research directions and projects that are synergistic with the company's goals
- Company logo on IAP website page, on IAP recognition monitor, and lobby monitors
