ANR 2015 Internship Opportunities
ANR Group Inc. is a recruiting company based in Richland, Washington. We have contracts with the Department of Energy - Richland Operations Office (DOE), Mission Support Alliance (MSA), Washington Closure Hanford (WCH), and Washington River Protection Solutions (WRPS) to recruit students for their summer intern programs on the Department of Energy site (Hanford site) in Richland, WA.

These intern programs allow students to obtain real world experience in their field of study and each intern is assigned a mentor that works with the student during the entire internship. In addition to gaining valuable experience, the interns are paid for the hours they work.

These companies are responsible for clean-up activities on the Hanford site. DOE oversees the projects associated with cleaning up the reactors, soil, groundwater, solid waste burial sites, and also manages the demolition of facilities, and the disposition of the remaining plutonium left on the site. MSA is responsible for services such as safeguards and security, environmental integration, site infrastructure and utilities, site business management, information resources and content management and portfolio management. WCH is responsible for remediation and restoration including decommissioning and demolition of buildings and ground water remediation. WRPS is responsible for developing new systems and technology that will help remove waste and sludge from old storage tanks.

If you are looking for an internship, please visit our internship website, www.anrinterns.com to get more information and to apply for the program. Students can also contact me directly at 509-946-1725, or via e-mail at amissav@anrgroupinc.com. I have also attached a flyer that provides additional information; please pass it on to any students or groups you feel would be interested in this opportunity.

New Course: Fundamentals of Subsea Engineering
Take the dive into TAMU’s new offering in Subsea Engineering. To learn more attend the info session at 5:30 pm November 11th in Zachary 105 B or see attached flyer.

PTS Tutoring Service Job Opportunity
Leadership and Job Opportunity
The Mechanical Engineering Honors Society is recruiting students to tutor four lower-level Mechanical Engineering courses: 221, 315, 344, and 363. This is a paid job, at $10 an hour and between 3 and 10 hours per
Summer Course Survey
Howdy MEEN Students! The Advising Office is taking a survey to find out which courses, if they were to be offered, would be most beneficial to you over summer 2015. Please take 30 seconds and fill out the survey here: https://tamu.qualtrics.com/SE/?SID=SV_aas3S48UDQ6KfbL

Please note that, while we make every effort to offer the courses that are going to be most beneficial to your schedule and time-to-graduation, the decisions on which classes to offer or if any summer courses will be offered at all are not up to us. PLEASE DO NOT DEPEND ON A COURSE BEING OFFERED OVER THE SUMMER as part of your degree plan. We won't know which courses we will likely offer over the summer until the summer registration schedule is posted in late March.

Thank you for your participation in this survey.

2015 Spring HCSMRP Scholarship
It is that time again! The Houston Chapter of SMRP will be awarding 4 - $2000 scholarships to engineering students for the Spring 2015 semester. We would appreciate your help in distributing the applications to the Texas A&M University College of Engineering students. We awarded one of the four scholarships to a Texas A&M student in the Fall 2014! Thank you and let me know if you have any questions!

Please complete the attached application and return to Steven Eubanks (Steven.Eubanks@shell.com) before 1/05/2015. After review of applications by the HCSMRP scholarship committee, award notification will be completed on 1/20/2015.

Important Advising Office Appointment Information
Howdy! We hope you are having a great start to the school year! The Mechanical Engineering Advising Office is structuring appointments differently this year.

- We have moved to an online appointment scheduling system. You can login and schedule an appointment with an advisor at least 24hrs up to 14 days in advance.
- For spring pre-registration advising, we will hold individual appointments according to the schedule below.
- We will also be holding group advising sessions in an effort to communicate information more effectively and provide an opportunity for Q&A. Information relevant to the target audience will be presented, then all three academic advisors will be available for general questions.

Individual Appointments
Seniors graduating in the next three terms: SEPT 29-OCT 31
MEEL (lower level) students: NOV 3- NOV 7
MEEN (all other students): OCT 13-31
Group Advising Sessions
Seniors graduating in the next three terms: OCT 1, 3:30-4:30pm, MEOB 301
MEEL (lower level) students: OCT 30, 4-5pm, MEOB 301
MEEN (all other students): OCT 14, 3-4pm, MEOB 301 and OCT 22, 4-5pm, MEOB 501

TAMU registration schedules will be posted later in the semester and can be found here: http://registrar.tamu.edu/Current/RegSchedules.aspx
TAMU academic calendar can be found here: http://registrar.tamu.edu/General/Calendar.aspx

Fall 2014 Graduation Information
If you are graduating in Fall 2014, the Advising Center would like you to set up an appointment with an advisor as soon as you can. We want to make sure those students planning on graduating in December are addressing all of their BSME requirements in their final semester(s).
If you are graduating in December 2014, the typical window for Application for Graduation is between mid-August to the end of September. More information will be available later on the TAMU Graduation Application website: http://graduation.tamu.edu/applica.html
Also, there is a lot of other good information that can be found at the TAMU graduation website http://graduation.tamu.edu/.

Academic Success Center
Wednesday Workshops—Fall 2014
Registration for the ASC Workshops is required! Students can register at ers.tamu.edu or go to our website for more details. All workshops are on Wednesdays from 1:50-2:40 p.m. and 3-3:50 p.m. in HECC 202 unless otherwise noted. SuccessCenter.tamu.edu

“Do I Have to Buy the Book?”
(Concentration, reading comprehension, textbook reading strategies)
Wednesday, September 24 and Wednesday, November 5

“Why Do I Have to Write That Down?”
(Forgetting curve, note-taking techniques)
Wednesday, October 1 and Wednesday, November 12

“My Mind is Blank”
(Test anxiety, test-taking skills)
Wednesday, October 15 and Monday, December 1
"Memory Matters"
(Information processing, types of knowledge, self-regulated learning, understanding retention)
Wednesday, October 22 and Wednesday, November 19

“Do or Die: Finals Preparation”
(Prioritizing study tasks for finals; 5 Day Study Plan)
Wednesday, December 3

**Academic Services Handout (tutoring/study help)**
Attached is the Academic Success Center’s academic services handout for tutoring/study help.

**GRE Prep- Free Practice Test**
You can take a free GRE test that will give you the most accurate score possible outside of the actual test. See the link below...

The next GRE Prep class for Aggies is starting Nov. 15. Sign up now to reserve your seat and learn everything you need to know about the GRE including...

--How schools use (and don't use) your scores
--The best techniques to conquer the verbal and math sections
--Simple tips to maximize your math score
--Every math concept I've ever seen tested on the GRE
--The easiest way to memorize large amounts of vocabulary as quickly as possible

Find out more [here](http://bit.ly/1tjbbm8)

**NEXT CLASS**
--Saturday, November 15th, 2014
--8 AM to 5 PM
--one hour lunch break
--Near the A&M campus

Click [here](http://bit.ly/1tjbbm8) for the detailed information about the GRE Prep course including future classes, course details, pricing, and information about private tutoring.

**IAESTE International Internships Webinar**
IAESTE (pronounced "eye-ess-tay"), or the International Association for the Exchange of Students for Technical Experiences, is a global organization promoting intercultural exchange between students in STEM
fields across the globe. The Association was first established in 1948 and now has more than 80 official member countries that host and send students abroad for technical internships each year. During the summer, students travel to host countries in the IAESTE network where they complete paid internships at companies, universities, and research organizations. The program was established in the United States in 1950 and is administered by Cultural Vistas, a nonprofit organization focused on building international careers. We would like to invite you and your students to join Cultural Vistas for a webinar on November 11th, 12pm EST to learn about international internships through the IAESTE program. 
https://culturalvistas.adobeconnect.com/iaste  (optional audio at 877-885-9757)

For detailed information and application materials, please visit our website at: http://www.iaesteunitedstates.org

The application deadline is December 1, 2014

**The GREEN Program- Now Accepting Applications**

The GREEN Program is the premiere experiential learning program for future clean energy and sustainability leaders. The short-term immersion programs take students on adventures to the epicenters of clean tech, sustainability, and innovative industries.

- Engage in hands-on, experiential education with industry experts and professionals
- Behind the scenes access to innovative clean energy facilities and sustainability projects
- Supercharge your resume with a global perspective and unique cultural experience
- Network and develop relationships with powerhouse student leaders and professionals
- Bridge the gap between traditional textbook learning and real-time industry insight
- Participate on world-class bucket list adventure excursions
- Earn an academic transcript during our 8-10 day programs

Take a step out of the classroom and experience the clean energy and sustainability industries, while having the adventure of your life with The GREEN Program.

Apply today for programs in Iceland, Peru, and Philadelphia! See www.thegreenprogram.com for more information.

**Southwestern Black Student Leadership Conference**

This conference has 500-600 participants every year that come from different colleges and universities to experience our workshops, career and vendor fairs, collegiate social and witness the inspiring presentations from keynote speakers.

**Information Session: Thursday October 30, 2014 at 7pm** in the MSC room 2504. The conference dates are: **January 22-25, 2015** at TAMU.

Sponsorship is available through the Department of Residence Life (must attend information session) or through the Mechanical Engineering Department (send email request and justification to Rachael Thomassie, rthomassie@tamu.edu by Tuesday, November 4th)

For more information visit the website www.sbslc.tamu.edu or see attached flyer.
MindSumo Challenges
Please take a look at the newest MindSumo mechanical engineering challenges linked below. MindSumo challenges are a great opportunity to get work experience by applying the skills you’re learning in classes, win cash prizes, and prove yourself to potential employers. As a refresher, this video gives a great overview of how MindSumo helps students across the country - https://www.youtube.com/watch?v=jcr3KFN_0PY

Please take a look at these Mechanical Engineering projects from MindSumo. MindSumo projects give you work experience from impressive companies and also have cash prizes for the brightest solvers.

How can our aerospace products be applied to new markets? By Northrop Grumman - $1000 in prizes

Design the Next-Generation Tablet Case by Targus - $1000 in prizes

Create the next generation of water bottles! By Nestle - $1000 in prizes

Questions can be directed to aaron@mindsumo.com

AggieSat Lab Opportunity
AggieSat Lab is a hybrid student organization and engineering lab building a satellite with an autonomous rendezvous and docking system in collaboration with NASA-Johnson Space Center and the University of Texas at Austin. It is a great way for students of all levels and disciplines to get hands on engineering experience, make professional contacts at NASA and other aerospace industry leaders. To learn more contact andrewshell@tamu.edu

Young Professionals in Energy – College Station Chapter
YPE is a non-profit organization with a primary focus on facilitating the networking and advancement of the careers for young professionals in the energy industry. We do this by providing social, educational and civic service opportunities here in the Brazos Valley. As you know, the oil and gas industry has grown exponentially in this region over the past few years, and with this growth offers substantial opportunities that simply did not exist previously. While currently primarily comprised of landmen, our goal is to broaden our base with other disciplines, including engineers, geologists, attorneys, accountants, etc. This is why we are asking for assistance in spreading the word to the mechanical engineering department, specifically upper classmen, graduate students, and professors who are interested in the oil and gas field. We have attached a flyer and a PowerPoint from YPE.

University Scholarship Application NOW OPEN
The University Scholarship Application is now open for the 2015-2016 year!
The application is available to all currently enrolled students, however, eligible students MUST have at least one semester completed at Texas A&M by the application deadline of February 1, 2015, to be considered for scholarships for the 2015-2016 academic year. Scholarships & Financial Aid as well as 38 other entities on campus, including colleges, departments, Study Abroad, International Student Services, and the Texas A&M Foundation, use this application.

**Things to know:**

1. Students can access the application starting today through [http://scholarships.tamu.edu](http://scholarships.tamu.edu).

2. The deadline is **February 1, 2015**.

3. There is no “submit” button on the application. The student should save as they go and can access their application at any time from now until the February 1 deadline. This way, they can edit and update as needed.

4. The application is dynamic – based off of the student's credentials (college, major, citizenship status, etc.), the application will tailor itself to fit the needs of the student. This means that the application will potentially look different from student to student.

5. Again, eligible students MUST have at least one semester completed at Texas A&M by the application deadline to be considered for scholarships for the 2015-2016 academic year.

6. Communication has been sent to the student’s TAMU email as well as posted on Facebook and Twitter.

**CBYX Fellowship in Germany**

I am pleased to announce that the Congress-Bundestag Youth Exchange for Young Professionals (CBYX), a fully-funded scholarship opportunity to study and intern in Germany, is currently accepting applications. Please make this information available to you and encourage you to apply in advance of the December 1 deadline:

The Congress-Bundestag Youth Exchange for Young Professionals (CBYX) is a year-long fellowship to study and intern in Germany. CBYX is open to applicants in all career fields, though preference is given to students in STEM fields, agriculture, business, and vocational fields. Students traditionally underrepresented in study abroad opportunities are especially encouraged to apply. The fellowship is funded by the U.S. and German governments through a grant provided by the U.S. Department of State, Bureau of Educational and Cultural Affairs, under the authority of the Fulbright-Hays Act of 1961, as amended. More information can be found at [https://www.cbyx.info/](https://www.cbyx.info/).

The CBYX program annually provides up to 75 participants with:
- 2 months intensive German language training
- 1 semester of study at a German university or university of applied sciences
- 5-month internship with a German company in the participant’s career field
- Transatlantic airfare, health insurance, and monthly living expense stipends

Prior German language knowledge is not required, though it is preferred. Applicants should have clear career goals and some relevant work experience in their career field, which may include summer, part-time, or internship work.

Participants must be between the ages of 18-24, possess a high school diploma or equivalent, and be U.S. citizens or permanent residents.

Interested applicants can apply online at https://www.cbyx.info/. The application deadline for the 2015-2016 program is December 1, 2014. We look forward to receiving applications from you!

**Seeking ME Undergraduate Students for Grader Positions**
The ME Department hires undergraduate students to help grade its courses. The work load is about 10 hours per week, and you get paid $10 / hour. If this sounds interesting to you, please fill out an application and submit it to Ms. Crystal Morris in the Advising Office (200 MEOB). Feel free to contact Dr. Jacobs (tjjacobs@tamu.edu) if you have questions. Be sure to apply soon as spots fill on a first-come, first-served basis. The application is attached.

**2015 Washington Internships for Students of Engineering DEADLINE**
Application deadline: December 31, 2014

The Washington Internships for Students of Engineering (WISE) program offers a unique opportunity for eligible engineering students to spend a summer in Washington D.C. learning how government officials make decisions on complex technological issues and how engineers can contribute to legislative and regulatory policy decisions. It is a great program for students who may have interest in future public policy involvement either in government or with the corporate sector.
Throughout the nine weeks, students will meet with leaders in the Congress, regulatory and cabinet-level agencies within the Executive Branch, prominent non-governmental organizations, and industry. Based on these contacts plus additional research done during the internship, each student is responsible for preparing a public policy oriented paper on a current engineering related public policy issue that is important to them and their sponsoring society.
Applications for WISE are sought from outstanding engineering students who display evidence of leadership skills and have a keen interest in public policy. Applicants should be undergraduate engineering students (juniors or seniors) or recent graduates beginning study in an engineering or technology policy-related Master's program. Applicants must be citizens or legal permanent residents of the United States.
WISE interns receive a $2,100 stipend as well as free housing during the internship. Interested students should visit the SAE Website for further information and an application.

Questions regarding this scholarship can be sent to Tim Mellon: tim@saе.org

3123 TAMU
College Station, TX 77843-3123
Email: tjjacobs@tamu.edu
Tel. 979.845.1538  Fax 979.845.3081
Online Tutor Job Opportunity
Become an online tutor in your favorite subjects, and teach whenever you want. As an InstaEDU tutor, you set your own schedule, make $20/hour, and work from wherever is convenient for you (dorm, apartment, library).

How does it work? We'll send tutoring requests your way whenever you're online. If you're available, just accept to instantly launch into an online lesson with a student. You can also set up scheduled lessons when it's convenient for you. Work with students of all levels and subjects, and make a extra cash while you do.

Signing up is easy and takes less than 10 minutes! Just visit http://instaedu.com/become-a-tutor and follow a few quick steps. If you have any questions about tutoring with InstaEDU, please email sophie@instaedu.com.

REACH Internship in Germany
Qualified undergraduate students will be offered the opportunity to complete a 2-month research internship at Ruhr-Universität Bochum, Germany. The internship will take place in June and July 2015, with an extension option available.

During the internship American undergraduates will work hands-on with a Bochum professor (the research mentor) and doctoral student in an ongoing research project. The Bochum research mentor will set the application requirements (listing of skills and prerequisites needed) and will have the final say in the acceptance of students for his/her laboratory. Each internship will be individually designed within the framework of the areas offered and must meet approval of the American partner university in order to be pre-approved as internship credit or a directed study credit.
To find out more information see the attached flyer.

Germany Exchange Program- Ruhr University Bochum
To find out more about the exchange program at the Ruhr University Bochum in Germany see attached.

India Engineering Research Abroad Opportunity
(ENGR 485, 3cr)
A 10 week research internship for summer 2015 is available at IIT-Kanpur (http://www.iitk.ac.in), one of the finest engineering institutes in the world. Eligibility requirements include a minimum 2.5 GPA and good academic standing. There are tri-fold pamphlets available in the 200 MEOB office. For more information, including scholarship opportunities, please visit https://studyaborad.tamu.edu

Global Distribution Study Abroad 2015
The Industrial Distribution Program is now accepting applications for the Global Distribution Study Abroad 2015 course (IDIS 445 and ENGR 410). The courses are open to all sophomores, juniors, and seniors majoring in Engineering, and must have good academic standing. The class will be held in the first summer session, and we will be spending 12 days traveling throughout China. The flyer is attached.
Hiltner Combustion Systems Job Opportunity

Hiltner Combustion Systems is a small engineering firm focused on the development of heavy duty stationary and mobile natural gas and dual fueled engines located in the beautiful Pacific Northwest. HCS works directly with engine manufacturers to develop new technologies and new engine platforms aimed at higher engine performance and lower emissions. The HCS engine test facility is located near Bellingham, Washington and consists of multiple engine test cells capable of running engines up to 1200 kW on a range of fuels under conditions typical of the heavy duty engine industry. HCS engineers combine engine testing with detailed analysis and simulation to provide complete combustion system and control system solutions for engine OEM’s and end users seeking to improve engine efficiency, reduce emissions and develop new technologies.

Attached is a position description for a job opening at HCS. They’re looking for undergraduates with good hands-on skills and background in engines or combustion systems.

Hiring Lab Assistant: Vibration Control and Electromechanics Lab

Hiring Lab Assistant: Vibration Control and Electromechanics Lab; Director Dr. Alan Palazzolo, Pay rate $10 / hr., 10 - 20 hours per week, Availability over part of the winter break, machining, mechanics, electrical skills are desirable. Please email resume and transcripts to a-palazzolo@tamu.edu

Data Center Operations Engineering Certificate

We have started a new certificate, namely the “Data Center Operations Engineering Certificate”. The website for the certificate is http://engineering.tamu.edu/academics/certificates/data-center-operations-engineering-certificate and some internship opportunities are explained in the attached file. In addition, we are working on getting some scholarships for students on the certificate. If you are interested, the website has an application and worksheet that you can fill out. Information is attached here.

Spain Study Abroad Summer 2015

Mechanical Engineering students are eligible to apply for the Summer 2015 study abroad trip in Spain. This study abroad program is intended to provide TAMU students and faculty with an in-depth experience with Spanish language, culture, history, government, and economy; consists of two upper-level courses instructed using an integrated teaching methodology have field trips to construction sites that would involve direct interaction with design and construction professionals. Scholarships and funding are available in many forms. Attached is a flyer and powerpoint with more information.
**MSC Stark Northeast Trip**
Is law or Business School in your future? Then don’t miss the J. Wayne Stark Northeast Trip. Visit Universities in Chicago, New York, Boston and more! January 11-20, 2015. Informational and application deadlines are included in the attached flyer.

**TAMU-Qatar Application for Summer 2015**
In summer 2015, ALL engineering majors are eligible to apply to TAMUQ for a 5- or 8-week term. Twenty (20) students will be selected. The best part is that the College of Engineering covers the majority of the cost for the students while at TAMUQ (flight/dorm/meals/international health insurance).

If you need to contact someone in the Undergraduate Advising Office, call 979-845-1252
Or e-mail Crystal Morris at cmorris@tamu.edu
If you need to speak to an adviser, try:
Rachal Thomassie at rthomassie@tamu.edu
Katelynn Graham at kgraham@tamu.edu
Doug Beck at dbeck@tamu.edu
