Formula SAE (FSAE) provides mechanical engineering students with the opportunity to enroll in a senior design course dedicated to designing and building a race car. Students must raise funds, manage time, and complete the car for the annual SAE international competition held in Lincoln, Nebraska.

**Texas A&M FSAE history**
- First car competed in 1999
- 1st overall 5 times
- 2nd overall 3 times
- 14th place finish in 2015

**Formula SAE at A&M**
- MEEN 401/402 classes for senior capstone project credit
- The team designs in the fall, builds / tests in the spring, and competes in the summer.
- If man hours are charged at competitive engineering rates the cost is over $1,000,000.
