Our Mission Statement

Our mission, as a component of a land-grant institution, is

1. to provide the high quality educational experience in the industrial engineering discipline which will prepare our graduates to contribute successfully to society and to assume leadership roles in industrial, governmental, and academic professions;

2. to provide the state and nation with new knowledge, both basic and applied, in the field of industrial engineering;

3. to provide service to the industrial, governmental, and professional communities through dissemination of research findings, provision of continuing education programs, interaction with industry and professional colleagues, membership on advisory committees, consulting, and other outreach activities.
John Smith

John Smith accidentally glued his hands to his face last week so he is unable to do anything requiring the use of his hands. His friends think it’s hilarious. Here’s some filler copy. Bor ipsmsnsndrem iustrud del exer iure commy nullummy nis aliquam quat veros dunt do odiam nis nmsndiat, velit, quat lam, consed tat wis ad tatem ad ea faccummy niatum vent illute minci eniam dolor at vullaorem ipsusti sequat nim dolobor inim ing ex erciduis accum qua, con ut lobor inci ea conse tis ad min velessim nos ad dunt aci tem venim velis accm in uit in utta autap. Firstname Last
Title Ph.D., University Name email@tamu.edu
Research interests are in virtual manufacturing, simulation, image processing, real-time video processing, augmented reality and human behavior modeling. He directs the Advanced Virtual Manufacturing and Augmented Reality Laboratory. He teaches courses in manufacturing and production systems design and control, facilities planning, virtual manufacturing and simulation.
