

DEGREE PLAN

These are suggestions and should be discussed with your advisor prior to submitting your degree plan online. To submit the degree plan, go to: <https://ogsdps.tamu.edu/>

If you do NOT have a Petroleum Engineering degree it is recommended that you take the following: **PETE 661, 662, 663, 664, 665**. Exceptions can be made with your advisor.

If you have a Petroleum Engineering degree AND/OR work experience in a certain area, then upon discretion of your advisor you may only need to take 1-2 courses from **PETE 661, 662, 663, 664, 665**.

PETE 692 – list as 3 credit hours. This course is mandatory to be included in your degree plan.

The following are advance courses in specialized tracks. Discuss with your advisor if you want to take a course or two in another area prior to developing your degree plan.

TOTAL HOURS FOR MASTER OF ENGINEER = 36 credit hours (12 courses)

SPECIALIZATION TRACKS FOR ADVANCED COURSES
